Prodhosh V S

Full Stack Software Engineer | Chief Technology Officer, Annexra | Chennai, Tamil Nadu, India
+91 6382512015 | hello@prodhosh.me | linkedin.com/in/prodhoshvs | github.com/prodhosh | prodhosh.me

Education

Vellore Institute of Technology (VIT) Chennai | B.Tech, Computer Science and Engineering — Jun 2025 – Jul 2029
Indian Institute of Technology (IIT) Madras | BS, Data Science (Diploma Level, Year 2) — May 2025 – May 2029

Experience

Annexra — Aug 2026 – Present
Chief Technology Officer (Oct 2026 – Present) | Software Engineer (Aug – Oct 2026) — *Remote, India*

- Promoted to **CTO** within 2 months; own architecture, delivery and engineering quality for a company building websites, automations and **ERP** systems for businesses. Shipped its **Next.js** website with SEO and a mobile-first UI.
- Built a **D2C e-commerce platform** (Next.js, TypeScript, Supabase, PostgreSQL): OTP login, **Razorpay** checkout, COD with advance payment, GST-aware pricing, order tracking, and server-side price re-checks to block tampering.
- Built the client's internal **ERP** back office (tasks, orders, customers, bulk email, analytics, activity logs) with custom roles, own/all permission scopes and PostgreSQL **Row Level Security** enforced on the server.

Midgreen — Sep 2026 – Present
Full-Stack Developer Intern — *Remote, India*

- Wrote a deterministic **search and matching engine** for sustainable packaging: parses plain-English queries (price, region, certifications) with spelling repair and ranks 25 materials on **7 weighted factors**, so every score is explainable.
- Built the public website and admin panel (Next.js, TypeScript, Hono, Cloudflare Workers, D1) with no-redeploy content updates and **83 automated tests** run on every build.

Sindra — Jul 2026 – Sep 2026
Next.js Developer Intern — *Remote, India*

- Built **Sindra Internal OS** (Next.js, TypeScript, Supabase, PostgreSQL): project and task tracking, CRM, chat, announcements, calendar, knowledge base and document management in one workspace, replacing disconnected tools.
- Implemented role-based access (Supabase Auth, RLS) and a custom email system with Resend and Svix webhooks.

Projects

BS Prep | Founding Engineer | Next.js, TypeScript, Supabase, PostgreSQL, Razorpay — Jan 2026 – Present | bsprep.in

- Lead engineering for a student-built exam prep platform for **IIT Madras BS**: Tamil video courses, live classes, quizzes, GPA tools, an in-browser compiler (Python, Java, C, C++) and an **AI doubt assistant**; shipped 4 products on one stack.
- Reached **500+ daily active users** and **5,000+ site visitors**; secured **5 corporate sponsorships** for the Ambassador program. Payments use server-side **Razorpay** orders and signature checks.

GSSoC Tracker | Next.js, TypeScript, GitHub API, PostgreSQL — gssoc-tracker.vercel.app | GitHub

- Built a faster alternative to the official **GSSoC 2026** leaderboard (56,000 participants) with PR scoring, rankings, analytics and email alerts when a score changes; I ranked **#932 of 56,000** in the same program.
- Serves **3,000+ users** and **150,000+ contribution events**; rated **4.7/5** in user feedback; **100+ GitHub stars**.

Quarry UI | React, TypeScript, Tailwind CSS, Framer Motion, shadcn registry — quarry-ui.vercel.app | GitHub

- Open-source (MIT) library of **86 animated React components**, 4 full app templates, 13 live backgrounds, 18 loaders and 78 brand design-system briefs, installable with a single **shadcn CLI** command.

Technical Skills

Languages: Python, TypeScript, JavaScript, Java, C, C++, SQL, HTML, CSS
Frameworks & Libraries: Next.js, React, React Native, Node.js, FastAPI, Hono, Tailwind CSS, shadcn/ui, Framer Motion
Databases: PostgreSQL, MySQL, Supabase, Cloudflare D1, Row Level Security
Cloud & DevOps: AWS, Google Cloud, Cloudflare Workers, Vercel, Docker, Git, CI/CD
AI & Data: LLM integration, RAG, FAISS, Pandas, NumPy, Scikit-learn
Concepts: Data Structures and Algorithms, System Design, REST APIs, OAuth, Payments, Webhooks, SEO

Certifications & Awards

Certifications: AWS Certified Cloud Practitioner (2026) | **Certified Cloudinary Media Developer Master**, Cloudinary (2026) | Claude Code 101, Anthropic (2026) | Supervised Machine Learning: Regression and Classification, DeepLearning.AI (2025)

- **Winner, Cloudinary May Mini Hack (2026)** with EcoLens, built as a selected Cloudinary Creator.
- **2nd Place, ELUSOC 2026** among 13,000+ contributors, as Project Admin of OSSfolio.
- **Rank #932 of 56,000, GSSoC 2026** (Campus Ambassador); 97 merged pull requests across 20 repositories.
- **3rd Prize, GadgetXpo Paradox '26, IIT Madras** for a BB84 Quantum Key Distribution simulation.
